Fresh Prunes very nearly over. Get them now
Squash and Pumpkin--have a treat this week.

Green and Ripe Tomatoes, Crabapples,
Vegetable Marrow, Green Peppers
Caulliflower in stock now.

B. M. ROBERTS

THE MAN WHO DOES THINGS

Shooting Season Off With a Bang

September 15th was duly honored in this vicinity. Threshing being impossible every available gun was brought into service and everybody went shooting. The game must have been fairly tame and very plentiful because people turned up with fair bags who were never known to shoot anything but shells before. The day appears to have been satis-

factory to everybody, the only possible dissent from this being in behalf of the partridges and ducks, the portion of these that escaped annihilation being very badly scared. As we are not sure just who had licenses we omit personal mention of prowess with the gun.

The Ladies' Aid will meet at Mrs. W. S. Ryan's on Thursday Sept. 24th. Mrs. Latiff and Mrs. Gisle will assist in serving. The date of the meeting of the Ladies' Aid, announced elsewhere in this issue, has been changed to Oct. 1.

Car is Stolen From Street

E. F. Crawford's Ford car was taken from main street on Saturday night and was abandoned after having been driven about twelve miles west. As far as can be learned the car was not damaged, but Mr. Crawford lost his Sunday roast of beef in the deal. The responsible parties have not yet been located, but there is reason to believe that conjecture in this direction is not very far from truth.

Surprise Party Enjoyable Affair

What proved to be a most enjoyable time occurred Monday evening, when the available members of the Champion Chapter O. E. S. met and proceeded in a body to the home of Mr. and Mrs. E. F. Crawford to do honor to a Past Patron of the Chapter, and at the same time extend a welcome to his bride.

The evening was spent in games and music, all entering into the spirit of the occasion. Mr. and Mrs. Crawford proving theirs a very hospitable home. After lunch was served Mr. Collins with the congratulations of the Chapter presented the guest of honor with a brass comport as a small remembrance from the members, the grooms reply being the event of the evening.

Among those present were—Mr. and Mrs. E. F. Crawford, Mr. and Mrs. J. Archibald, Mr. and Mrs. G. Vaisey, Mr. and Mrs. D. Clement, Mrs. J. Hangerman, Mrs. Stephenson, Mr. and Mrs. J. O. Bell, Mrs. Bell Sr., Mr. and Mrs. J. Roobuck, Mrs. Woodhull, Mrs. Manhard, Mrs. Williamson, Mr. and Mrs. J. Collins, Mr. and Mrs. J. N. Beaubier, Mr. and Mrs. W. C. Hoskins, Mrs. C. McLean, Mrs. G. Deque, Mrs. A. Jopling, Mr. H. Gill, Mr. and Mrs. G. A. Orr, Master Donald Crawford, Misses Melba and Forbes McGillivray.

Mrs. Ainsley, of Spokane, is visiting her sister Mrs. R. F. Nelson.

On Oct. 8th the Barons W. I. will entertain several branches, including Champion, from 2 to 5 p. m.

Miss Snyder, of Carmangay, who has been in the dry goods department in McCullough Bros. for some time, left for home on Thursday, where she will enter the employ of O. L. Taylor.

W. T. dance Friday night.

VILLAGE OF CHAMPION

Refuse and Ashes

Residents of the Village of Champion are being instructed not to throw any ashes or other refuse on the main streets of the Village, but to put the ashes in low places in lanes and refuse where it can easily be transferred to the nuisance ground.

By order,
VILLAGE OF CHAMPION.

Watch Your Step!

Look Out for That First Cold

That's the greatest danger—the first cold of fall. Right now while you think of it get a box of Laxa Cold Tablets and the minute a cold appears take a few doses. They will stop a cold in about 24 hours, if taken in time. Watch your step this year and don't let your self get tied up with the flu.

CHAMPION DRUG CO.

Druggists and Chemists.

Thieves at Work In Champion

On Tuesday evening the back door of the drug store was forced during Mr. Henderson's absence, but evidently the burglars became alarmed and left without ransacking the store, as nothing was missed. On the same evening two pair of blankets, an overcoat and flashlight were stolen from the Long Louie restaurant. It is assumed the thieves arrived on the 6:30 train and left during the night.

John F. Miller, eye sight specialist, of 404 Underwood Block, Calgary, will be at the hotel in Champion on Thursday Sept. 24th.

"Code of the West"

Friday @ Saturday
Sept. 18-19

Zane Grey's "Code of the West" is Roaring Western Romance with Comic and Melodramatic Trimmings. The story of a New York flapper who tried to vamp a cowboy, and was tamed and taught the "Code of the West." Thrill one: The greatest forest fire scenes ever screened. Thrill two: The thousand foot leap of horse and rider from cliff to river! And the other hundred thrills are just as real and heart-quickenning!

Coming Next Wednesday, Sept. 23: "OH DOCTOR." This is the biggest laugh producer we have shown for months. Coming Friday and Saturday, September 25 and 26, COLLEEN MOORE in "SO BIG."

WORLD HAPPENINGS BRIEFLY TOLD

Since 1918, two billion dollars in average income tax and delinquent penalties have been collected in the United States.

The climax of "Big Ben" in the Parliament Buildings at London were heard plainly in San Francisco over special telegraph and cable circuit.

Str. Francis Lewis Castle, Wind, London, permanent secretary of agriculture and fisheries since 1920, has been appointed a member of the warrent settlement committee.

The neophyte service of the European Union, comprising 16 naval aviation companies, is to be continued during the winter this year for the first time.

Mr. Isabelle Focke, mother of Robert Focke, leader of the Progressive party in the House of Commons, died at the latter's home in Kingston recently, aged 91 years.

Provision that one-third of his million dollar estate be used for the relief of school teachers, was a feature of the will of the late Simon Glick Philadelphia.

Field Marshal Baron Plumer, new British high commissioner for Palestine, has arrived at Jerusalem and taken the oath under the commission of Palestine.

Professor Bartlett Grass, the famous biologist and physician, died recently at the age of 70. He was widely known in the international medical world as an investigator of malaria disease.

The London Daily Mail says the British Government has ordered the arrest of all Communists concerned in plots which have been reported to light during the past few weeks to influence troops at the Aldershot camp and elsewhere.

The "newspaper plane" is the latest aerial stunt. A Springfield, Ill., newspaper tried delivery of papers by dropping them at the houses of subscribers in an aeroplane, and three times of the farmers reported safe arrival of their papers.

Will Live On Beans

Solving the Food Problem For Russia?

A newly discovered foodstuff, which may leave Soviet Russia against famine and enable the government to approach a solution of the food problem for millions of her population, is attracting official attention in Moscow.

The new food is the product of a budgetary physiologist. Dr. V. N. Pashkov, who is conferring with the government regarding the production and distribution of soy bean flour, a food stuff which is said to possess great nutritive. In operation, or so far as equipped with the proper machinery, to provide food for ten million persons. In nutritive value, one pound of Soy bean flour equals two pounds of meat, plus a half pound of wheat flour and its usefulness above all is as a meat and egg substitute. It is estimated that the introduction of Soy bean flour on the scale now contemplated would release the Soviet Government to release 600 tons of meat and eggs daily for export.

Uncomfortable Antiques

Old Furniture Not As Comfortable As Modern Kind

While very high prices are paid for antique furniture we know that such furniture is not always as comfortable in which to recline. When Queen Alexandra was visiting York many years ago as Princess of Wales she stayed at the property of a noble and along one night at the Deanery as the guest of Dean Purty Cuth, she dropped into a lounge chair and remarked: "How splendid to drop into a comfortable chair, after too much William and Mary." Our ancestors carried themselves well, but it must have been at the cost of many weary hours spent in straight-backed chairs.

The Traders In Dope

The prohibition of the traffic in drugs has the hearty support of all Canadians except the few who are very wealthy beings who are addicts. There is in this no loosening of standards. The man or woman who trades on the waterfront of these afflicted with the drug habit has no sympathizers. It is one of the most despicable crimes of the modern world. Therefore, of the Royal Canadian Mounted Police in searching out those parties will have general commendation.—The Ottawa Journal.

When everybody says it, nobody knows it for certain.

Intervention in love is equivalent to a declaration of war.

W. N. U. 1924

Disease Among Eskimo

Adopting White Men's Methods May Lead to Extinction

Not many years will elapse before the Eskimo will be exterminated by disease through adopting white men's methods of habitation, declared Dr. D. E. Scott, who recently returned to Edmonton after spending one year at Inukjuik, the Eskimo's river MacKenzie River. He has been acting as medical officer to the Royal Canadian Mounted Police Arctic posts and working among Indians and Eskimos in behalf of the department of Indian affairs.

While this prediction has been made by others in the past, Dr. Scott adds that Eskimos and Indians of the delta are also suffering from intestinal parasitic attacks, due to eating raw fish, rabbits and other meats. This, however, he claims, is not a serious problem to contend with, but such diseases as cancer and appendicitis, he states, are becoming too prevalent among the Indians.

In the old days, when snow houses were the temporary homes, the Eskimos were healthy, states the doctor, but since they commenced living in cabins and shacks, tuberculosis has broken out among them, and this dried disease threatens to wipe them out. Among the delta Indians, Dr. Scott notes that all but ten per cent. are now showing symptoms of tuberculosis. Their methods of living were such that the disease was on the increase.

Speaking of law and order in the north, Dr. Scott declared that the Eskimos and Indians of the Western Canadian regions are the most law-abiding people in the world, and he could not recollect one police case during the year he was among them. The Eskimo, however, were missionaries have not penetrated, an occasional murder was committed, but this, the doctor says, is really the Eskimo's sin at work.

How Russia Goes After Business

Fomenting Strikes in England in Order To Sell Their Own Coal

The Paris correspondent of the New York Times reveals that at the very time the ruling circles of Bolsheviks were egging on the British coal miners in their strike threat, Moscow's agents were conversing through secret channels for Russian coal, to replace English and Welsh coal during the expected shortage.

That is the kind of friends for the real laboring men of the world to have! Because they killed off, not only the English coal miners, but also the Russian coal miners who had brains and trading knowledge and whose industries successfully, the market products successfully, the nation. With its capital and its factories cannot compete with the "capitalist" industries of other nations. While it is simpler to say everybody else is an strike so that Russia will have a chance to tell something—Minneapolis Journal.

Ontario Makes Drastic Laws For Motorists

Must Obtain Driving Permits and May Have to Pass Examination

Every man or woman who drives a motor car in Ontario next year will first have to obtain a driving permit. Ontario's Minister of Public Works and Highways, told the annual meeting of the Canadian Automobile Association at Toronto.

The issuance of these permits would, in all probability, in due course be followed by compulsory examination for all drivers, he said. Any conviction for traffic act infractions registered against a motorist would be entered upon his permit and could lead to the permanent revocation of license to drive.

May Abandon Dirigibles

U. S. Government Virtually Decides to Concentrate on Aeroplanes

The Shenandoah dirigible probably will be retired in temporary, if not complete abandonment by the government of the lighter-than-air airships. The Los Angeles may be sold for what it will bring, the Lakehurst station probably closed, helium extraction will be curtailed and more appropriations and energies will be concentrated on aeroplanes.

The programme had virtually been decided for reasons of economy, before the loss of the Shenandoah, and with this new proof of the vulnerability of dirigibles against more certain than ever to be adopted.

The Age of Speed

The cities and towns of Rhode Island have set 35 miles an hour as the proper speed for autos on highways, and it is probable that having spent vast sums on roads they cannot afford to have them cluttered with cars moving along at only 12 or 15 miles.

Children in Glasgow may travel free distance on the street railway for one penny. Some of the routes extend up twenty-five miles.

CLIPSE FASHIONS

Exclusive Patterns by Skunking

Charming Envelope Chemise

When it comes to undergarments you can be just as frivolous as you please. Just a few ruffled-edges, a bit of hand-embroidery, and some dainty lace and ribbon, and you have a choice bit of underwear of your very own making. The diagram pictures the simplicity of the step-in chemise above, which may be scalloped at the lower edge or left plain. The sides of both the front and back are cut over the hips and slightly gathered to the upper part, forming a perfect fit. Size 26, 40 and 44 inches bust. Size 36 bust is suitable for 24 and 34, size 40 for 38 and 40, and size 44 for 42 and 44. Size 56 bust requires 13½ yards of 26 inch or 40 inch material. Price 20 cents.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dressmaker. Price of the book 10 cents the copy. Each copy includes one coupon good for five cents in the purchase of any pattern.

Find Graves Of

Massacred Christians

Believed To Be Victims Of Jap Revolution in 1637

Dr. Earl M. Jull, Methodist Episcopal missionary in charge of work in Loo Choo Islands, Japan, has discovered the burial ground of 31,000 Christians, believed to have been killed in an uprising during the revolution of 1637.

An inscription found near the graves by Dr. Jull states that in all 32,000 Christians were slain, beheaded and buried.

The heads of the victims were buried in one spot and the bodies carried to another place, so there would be no chance of them uniting again, the inscription said.

The massacre practically wiped out all the Catholic converts in the country.

Open Big Conference

Seven Hundred Delegates Attend Child Welfare Conference at Geneva

An immense effort to improve the welfare of the world's children was launched at Geneva with the opening of the first child welfare congress, attended by 700 delegates from 58 countries, including the United States and Canada, of the Latin-American Republics.

Two hundred reports, dealing with various aspects of the child problem, were submitted to the congress.

André Ollivier, Swiss minister of education, was elected president of the congress, and the Marchioness of Aberdeen was chosen to head the education section.

In the long buried city of Ur of the Chaldees, a place of antiquity, has been dug up, showing a lively picture of workers carrying mortar up ladders.

A British ship building firm predicts that motorships will replace steamships. It is building 13 large motorships, which will be operated by gasoline motors.

Poor Remuneration For Technical Work

Very Discouraging For Those Who Go Into The Profession

A New York newspaper is making an appeal for the better treatment of that city's engineering staff. It is an extraordinary statement on the head and better value of a technical education when college graduates must appeal for compensation almost as meagre as that of plumbers, bricklayers and plasterers.

Of the engineers employed by the city of New York, and the same scale presumably is common throughout the continent, ten per cent. receive less than ditch diggers. About twelve per cent. earn the same as the men of street labor crews; while the majority are not so well paid as the everyday mechanical craftsmen.

It is a peculiar fact that the so-called "white collar" employments, including bank clerks, bookkeepers, draughtsmen employed by architects, engineers who lay out the work for their better paid ditch diggers, and mining engineers, are all in comparison to the trades and to unskilled labor shockingly underpaid.

If there is not a racial turn for the better in these matters, the next generation is going to witness a shortage of college men seeking technical education. If a young man wants to make a decent living at his chosen profession after spending a mint of money and four or five years of his life in university, he is a fool to pursue it.—The Toronto Star Weekly Night.

China's Substitute For War

Boycott Has Become Favorite Weapon Against Foreign Nations

The Chinese are adopting in the use of the boycott. It is their substitute for war. News that in South China, Chinese goods are included in a boycott declared against imports from Great Britain will be disquieting to merchants and manufacturers in the Dominion who have dealings with that country. Fortunately they are relatively few, and in most cases it will be easy to refrain from doing business with the boycotted goods.

China's exports are wheat, flour and lumber. It is also a growing trade in automobiles—over two hundred last year—and Canadian wharves both were doublets mainly for the use of residents in the foreign quarters of the Chinese coast cities.

May considerably lose for a time, but that is not what some western mills have been cultivating in China, but even the keenest of the boycotters will have trouble in discriminating between Canadian wheat and that grown in Dakota and Minnesota.

That it is in which Canada is penalized through no fault of her own because she flies the Union Jack. It must be met against the many others in which Canada secures pointed advantages in foreign trade because she is a member of the British Commonwealth of Nations.—Toronto Globe.

Receive Fewer Immigrants

U. S. Immigration Reduced By 68 Per Cent. Due to New Laws

The new immigration law has reduced by approximately 68 per cent. the number of foreigners to enter the United States, according to analysis of immigration statistics for 1924-25. Many nationals of foreign countries are leaving the United States for their home shores. Several countries have not only failed to fill their quotas but the net immigration has been reduced by an emigration of aliens. Figures show that 20,945 more Italians left the United States than entered it during the year.

Germany, Great Britain, the Irish Free State and Sweden also failed to fill their quotas but the net immigration was less reduced by an emigration of aliens. Figures show that 20,945 more Italians left the United States than entered it during the year.

The total immigration was 29,214 for the year, as compared with 70,896 during the preceding year, before the new law went into effect.

Canada and Mexico are now the chief sources of immigrant labor, the influx from these countries yielding a total of 129,129 or nearly two-thirds of the net immigration for the year.

Obliging Orders

The great Napoleon was once visiting an outpost at night and alone. On the road he was stopped by a French sentry who refused to let him pass. Napoleon argued but did not disclose his identity. Finally, the sentry said: "I have orders to let no one pass and I would not let you pass if you were Napoleon Bonaparte himself."

Napoleon turned back. The next morning the sentry was promoted to be an officer and by later became one of the emperor's most brilliant generals.

Click—"Yes, sir; a lady's belt. What waist measure?"

Reply—"Oh, about as long as my left arm."

Crippled Veterans Work For Princess

Have Nearly Completed Bedroom Suite Ordered By Lord Lascelles

A porter, waiter, market gardener and farm laborer are helping to make one of the most beautiful pieces of furniture produced during this generation—a cream lacquered bedroom suite of Hindustani mahogany ordered by Lord Lascelles for Princess Mary Viscountess Lascelles.

A London Daily Mail reporter saw the mahogany suite growing in the hands of the disabled workers of the Lord Lascelles Memorial Workshops, Fulham Road, S.W., not one of whom had any knowledge before the war, in which he was wounded, of the fact that he was now "practical."

Men with only one leg or one arm, and one who has lost two limbs, have finished most of the woodwork of the suite, which—made with lifelong experience of the furniture trade have never seen one so long and the drawing table was washed, two bedchamber tables, and other articles in the seven-piece suite will soon be ready for the lacquer.

The former discoverer was before the war a market gardener.

There are more than a dozen big beds to be treated, and much of the work will fall to the hands of the water, who is the most remarkable man in the department.

"About a year ago he came to me for a job," said an official. "He was 50 per cent. disabled, and we followed our London course of trying him in every department until we could find something that suited."

"He seemed to be fatigued, and at last I said, 'Can you draw?' He said he had never tried but was willing to do so. So we handed him over to our artist, who first made him do pot-boilers. He was nearly driven to despair and persevered with him until he is one of the best painters of lacquer pieces in London."

Turks Abandoning Old Customs

Officials Must Wear Hats and Dress Like Europeans

More and more the newly-born Turkish Republic is abandoning old Turkish customs and adopting European methods, while the fez and turban as national headgear seem to be going into the discard. The country of commissaries has decided that all officials must dress in European fashion and wear hats.

It is not yet permitted to wear turbans and hats must not be worn in government offices.

Passing Of Newspaperman

Former Editor of Western Papers Dies

James A. Crutcher, aged 43, veteran newspaperman and formerly news editor of the Saskatoon Star, Saskatoon Phoenix, Regina Post and Regina Morning Leader, is dead at Little Rock, Ark., where he held the position of business manager for the Daily News.

Mr. Crutcher, born at Beardsden, near Glasgow, Scotland, was formerly editor and proprietor of the Stanley Herald, and at one time was an employee of the Northern Town. An abscess of the brain was the cause of death. He was survived by his widow and six children. The funeral was held at Little Rock, Ark.

Discover Huge Jewel Cache In Leningrad

Hidden in House Of Former Tailor To Czar

In a house formerly occupied by the tailor to the Czar, whose name is Laval, and who now carries on a banking business in Paris, an immense quantity of gold and silver articles, set with precious stones and diamonds, has been discovered. The jewel box was found to contain 450 articles of elaborate workmanship and a number of the finest blue diamonds weighing 75 carats. The find also included a great number of gold cane-smoked cigarette cases, snuff boxes, rings and pendants.

Demand For Domestic

Saskatchewan Farmers' Wives Are In Need of Household Hints

Saskatchewan farmers' wives are looking anxiously for the household help which the bureau of labor and industries of the Provincial Government arranged to be sent to them from the British Isles under the Imperial Government overseas settlement scheme.

The bureau contracted for 120 domestic to be sent to Saskatchewan during the past year. But the list is so full that the bureau has had to turn away many women.

Some men are so unlucky that an earthquake could break out at it wouldn't swallow the land until the after they had paid the taxes on it.

A Famous Statesman Said :

"I like to see a man proud of the home he lives in, for a home-loving man is the nation's greatest asset."

BUT it's hard to be proud of that home when the wallpaper is torn and dingy; when the paint has peeled or flaked off; when the outside is weatherbeaten and shabby.

Sherwin-Williams Outside Paints Kyanize Interior Finishes

Staunton's Semi-Trimmed Wallpaper

Will make your home bright, clean, sanitary, and will add many times its cost to the value of your farm property.

Fall is One of the Best Season's to Paint

The lumber is drier in the fall than in the spring. Paint penetrates further and gets a firmer hold. Winter is very hard on lumber. Protect it, as it costs real money to replace.

Call In and Talk it Over.

W. C. HOSKINS

What's the Difference ?

between a villain who steals your hard earned money and an old Cream Separator that robs you of dollars in cream every season? You'd jail the thief, but the other robber you keep around under cover to grind more money out of your pay cheque.

DeLaval Cream Separators Will Stop the Loss !

They are not an experiment but have been built and improved for years, until they are universally known and used.

When You Buy DeLaval you buy the world's standard of quality, backed by a positive guarantee of satisfaction and service.

Repairs are always carried or can be procured promptly.

THURSDAY, SEPT. 17, 1925

NOTES AND COMMENT.

The real fault with all the parties and groups that are appealing to the country for support is the fact that none of them will practice economy and endeavor to reduce taxation except when in opposition. The farmer government in Alberta have made its biggest failure in permitting the provincial debt to grow year by year in face of the stiffest kind of taxation, in fact they seem to be very much more interested in finding new methods of raising more revenue than in decreasing expenditure. The same criticism applies to both Liberals and Conservatives. The country has been loaded with debt in over-expansion in public expenditures in every direction and it does not seem possible to get a government under any name that will not continue to add to public obligations and impose further taxes.

A proposal to establish a municipal hospital in this district, which is directly backed by the government, is a sample of continued generosity in expenditure without any regard to the financial situation of the people affected. Taxes are already very high in the territory

affected and a big percentage of the farmers are not solvent, still we are urged to embark in a new enterprise and increase the ratepayer's burdens.

In 31,000 different products rubber is replacing leather, wood and metal.

A new box-shaped tool has been invented for boring square holes. Miniature circular saws are a feature.

Gas, carbon, phenol oil, pitch, cement and acetic acid all have been reclaimed from ordinary straw by chemical processes.

Through the development of a new process, pure aluminum is now produced. The product has a beautiful silver color and luster.

Best Bulbs For Fall Planting

Flowers are, no doubt, enjoyed more in the spring than at any other period of the growing season. After a long winter the first flowers are eagerly sought for and if bulbs have been planted in the autumn one has not long to wait for flowers for November. Blooms as soon as the snow has gone. Then comes in rapid succession, and some at the same time, the Scillas or Squills, Glory of the Snow or Chionodoxa, Crocus, Grape Hyacinth, Dutch Hyacinth, Narcissus in great variety, and early cottage and Darwin Tulips. These give a succession of bloom from early in April, or earlier if the frost is out of the ground, until well on in June.

While the bulbs are growing in Holland, the flowers for next year are being formed in the bulb. Later the bulbs are dug, cured and shipped to Canada. Knowing that the flowers are already formed in the bulbs before planting, he who proposes either to grow them in the garden or put them for the house will readily understand that large, well-developed bulbs are likely to give better flowers than small ones. In ordering this should be remembered. No amount of care can add more bloom to a Hybrid bulb than were formed when the bulb was growing in Holland.

Unless the bulbs are well rooted in the soil outside or in the pots in the house, the results will not be satisfactory.

W. I. Dance Friday night.

Born—On Monday, Sept. 14th, to Mr. and Mrs. W. J. Corson, a son.

B. M. Roberts and L. Church spent the week-end in Lethbridge.

Forty barrels of salt per day is being produced at Fort McMurray on the A. and G. W. railway.

Rev. and Mrs. J. Lee, and Brian were at Carmanagay last week, the guests of Rev. and Mrs. H. M. Horricks.

R. F. Nelson moved during the week to the residence in the subdivision formerly occupied by C. E. Anderson.

Mrs. C. Williamson and Miss Ada spent the week-end in Calgary, visiting the former's sister, Mrs. Konkey.

I wish to thank the Champion Women's Institute for the beautiful collection of flowers sent me during my recent illness. Ethel McDougall.

Rain fell north east of town on Sunday night, and also to the west. Champion and to the south missed this storm.

R. Tyler's new implement of office building is nearing completion. Beats all the progress this town is making this year.

C. A. Magrath, formerly of Lethbridge, has been appointed chairman of the Ontario hydro commission, to succeed the late Sir Adam Beck.

There was more rain in September than in any month during the past three years. Everyone regrets that this record did not apply to July.

Sunday was an ideal sunny Alberta day, the first for nearly two weeks. Rough roads spoiled the fun for the motorist, but everyone got out and sunned themselves.

The Dominion elections are in full swing in eastern Canada, although up to date there is not much stir here. After threshing is completed more interest will be taken in the election program.

The Women's Institute will hold a dance in McCullough's hall on Friday night, when a splendid time is assured those who attend. The music will be supplied by Miss Watkins and Messrs. J. Anderson and F. Clever.

The Annual Conference of the High River and Little Bow Constituency of the Alberta Women's Institute, will be held in the Community Hall, Brant, on September 29th.—Mrs. F. C. Aleck, Champion Constituency Convener.

Winter wheat is beginning to attract attention in this part of the country, yields achieved in the Nobleford and Lethbridge sections bringing this species of wheat into the limelight. A few acres of fall wheat on every farm would certainly do no harm.

NEWS NOTES

More than 52,000 cars are operating in Alberta this year, compared with something over 47,000 in 1924. The total receipts from car licenses thus far this year have been \$912,000, compared with \$845,000 for the entire year of 1924.

The Alberta wheat pool is adding an average of 4000 acres each day to the total acreage involved in the pool for the 1925 crop according to an announcement—from pool headquarters. In one day in the past week 8000 acres were added.

Farmers who are growing Howes Alberta Flat Corn in quantity will, as a matter of course, save seed for their own use, or to sell. Those who are growing it in gardens however, should see to it that they save a small quantity of seed for their own use. The College of Agriculture cannot undertake to furnish the seed for every one.

Probably there will be more disappointments in the drive to discover oil in commercial quantities in Southern Alberta. But every well drilled brings the day nearer when the great discovery is made, for the oil is there and all the indications go to prove it.—Lethbridge Herald.

Harvesting of Alberta's first sugar beet crop on the irrigated districts in the south for the new sugar beet factory at Raymond is commencing. The crop is a large one, and is expected to average 15 or 16 tons to the acre throughout the district, which will give a total harvest of more than 100,000 tons. The factory at Raymond will open for operations shortly. Some farmers expect to get as high as 25 tons of beets to the acre.

Farmers are beginning to boast about their fine corn and sugar beet crops. Which is evidence that Southern Alberta is progressing agriculturally. A couple of years ago these crops were not mentioned because they were not grown. Today the acreage runs into the thousands.—Lethbridge Herald.

About 4,000,000 bushels of western Canadian grain have been booked for shipment to Vancouver, according to members of the grain trade at that port, whose reports indicate that October, November and December will see an unprecedented flow of grain through the port of Vancouver to the United Kingdom and continental Europe.

According to official figures just made public, 10,000 females, wives and housekeepers, left the British Isles for British North America last year, and 6,000 went to Australia. More than 10,000 males emigrated last year to Canada to engage in agricultural work. The total number of emigrants from Great Britain to other parts of the empire during 1924 was 115,000.

And following close on the heels of federal election, will come the municipal elections, which may not be without a very great amount of excitement. Then will be a provincial by-election in many parts of the province, and then a provincial general election. This will be a year not without its election excitement, particularly in this part of the country.—Albertan.

STEAM HEATED

ELECTRIC LIGHTED

Shipments of cattle from Canada to Great Britain during July, 1925, were in excess of the same month last year, according to the monthly report of the Federal Department of Agriculture. The total shipments for the first seven months of the calendar year show an increase of over 10,000 head, when compared with the same period last year. All classes of meats show heavier shipments on export for the period January to July, inclusive, as compared with 1924. Beef exports were increased from 11,770,000 pounds to 14,897,000 pounds; bacon and hams from 63,040,000 pounds to 73,743,000 pounds; pork from 51,180,000 pounds to 10,811,000 pounds; and mutton and lamb from 94,100 pounds to 398,000 pounds.

Straight grain farming, or wheat raising as it is called in western Canada, is gradually but surely becoming a thing of the past in the three prairie provinces. Almost every farmer in the west today has at least a few pigs, cows or poultry, and some sort of a vegetable garden from which he secures food not only for himself and family, but also sufficient returns to look after his current expenses on a cash basis. Manitoba and Alberta undoubtedly lead in this development, but even Saskatchewan, the largest wheat producing province of western Canada, has an ever-increasing number of farmers who are followers of the mixed farming plan to the extent that they are living very largely upon the products of their farms.

The provincial department of agriculture, which is undertaking to manufacture for marketing the Stephen grain cleaning attachment for separators, will make a demonstration of the improved machine at Calgary, Lethbridge and Chatham in the near future. The demonstration at Calgary will take place toward the end of next week in the vicinity of Shepard. A further announcement concerning this will be made. The machine has recently been considerably improved and is considered modern in every respect.

Heavy Rainfall Delays Threshing

Everybody was ready to start threshing on Thursday morning, and, naturally, after a lay off of nearly two weeks everybody was 'rarin' to go.' It was a real rain and snowstorm that intervened and now next Monday is the earliest date indicated for commencing threshing. Most of the gangs are being held despite the extremely long wait.

Attend Presbytery At Claresholm

Rev. J. Lee accompanied Rev. H. M. Horvick and Mr. M. McLaren of Carmangay, to Claresholm on Thursday last, for the meeting of the High River Presbytery. The return trip was made the same evening. The roads were heavy after the recent rains, and motoring in the circumstances was not what you would call joy riding. The Presbytery gathering was very successful and enjoyable, the erstwhile Presbyterians and Methodists fraternizing splendidly. Rev. G. G. Webster of Claresholm was elected Chairman, and Rev. W. M. Nichol of High River, elected Secretary of the Presbytery. Mr. E. F. Crawford was named as the lay representative of Champion at the Presbytery.

C. P. R. Appeals Rates Decision

The Canadian Pacific railway has filed with the railway commission an application for suspension of the order for lowering of the Pacific export grain rate until such time as the whole board deals with the question of the decision of the order.

Apart from the doubt which has been created owing to the division in the board the Canadian Pacific Railway company claims that the order was not justified by the evidence taken in the inquiry. Since the difficulty arose the board has been completed by the appointment of Thomas Vien, ex-M. P., to the Quebec vacancy.

The application of the Canadian Pacific railway will be given a public hearing on Tuesday, September 23.

CHURCH BULLETIN

Rev. J. Lee announces the following services for Sunday next, Sept. 20.

11 a.m.—Sunday School.

7.30 p.m.—Public worship.

Sermon by Mr. Lee, selection by the choir. You will be welcome.
